### INDEPENDENT AUDITORS' REPORT

To the Stockholder of Starmont Capital Limited Cedar Rapids, Iowa

We have audited the accompanying financial statements of Starmont Capital Limited (the "Company") for the year ended December 31, 2004 listed in the table of contents, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of Starmont Capital Limited at December 31, 2004, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedules of the Company as of December 31, 2004 listed in the table of contents, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. These schedules are the responsibility of the Company's management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

# NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2004

### 1. ORGANIZATION AND NATURE OF BUSINESS

Starmont Capital Limited (the "Company") is a broker-dealer registered with the Securities and Exchange Commission and the National Association of Securities Dealers. The Company was incorporated in December 1984 and commenced operations as a registered broker-dealer in May 1986 and is a wholly owned subsidiary of Starmont Corporation (the "Parent"). The Company conducts operations in Iowa.

### 2. SIGNIFICANT ACCOUNTING POLICIES

**Securities Transactions** – The Company does not hold customer accounts and clears all customer transactions through another broker-dealer on a fully disclosed basis.

Marketable securities are valued at market value. Realized gains and losses are recognized using the specific identification method. The change in unrealized appreciation and depreciation on investments is included in the statement of operations. The Company's investment in common stock at December 31, 2004 consists of 1,000 shares of Merck & Co. Inc. and 120 shares of Medco Health Solutions, Inc. with a market value of \$32,142 and \$4,990, respectively.

Commissions – Commissions and related clearing expenses are recorded on a settlement-date basis as securities transactions occur.

Investment Advisory Income - Investment advisory fees are recognized as earned.

Cash Equivalents – The Company considers all highly liquid investments, with original maturities of less than ninety days when purchased, to be cash equivalents.

**Deferred Taxes** – Deferred income taxes are provided to reflect the net tax effect of the temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax purposes. Changes in the carrying amounts of deferred tax assets and liabilities, generally related to the unrealized appreciation or depreciation of investments in common stock from period to period, are reflected in the statement of operations.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### 3. NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1) which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the applicable exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting indebtedness to net capital ratio would exceed 10 to 1). At December 31, 2004, the Company had net capital of \$179,349, which was \$79,349 in excess of its required net capital of \$100,000 and the Company's indebtedness to net capital ratio was .12 to 1.

### 4. INCOME TAXES

The Company is included in the consolidated income tax return filed by the Parent. Income taxes are calculated as if the Company filed a separate tax return. The current and deferred portions of the income tax expense included in the statement of operations are as follows:

	Current	Deferred	Total
Federal	\$ 34,675	\$ (1,935)	\$ 32,740
State	9,947		9,947
	\$ 44,622	\$ (1,935)	\$ 42,687

The Company's net deferred tax asset consists of the tax effects of temporary differences related to the following:

Net unrealized depreciation of investments	\$ 5,259
Property	(185)
Accrued dividend income	(152)
	\$ 4,922

The Company's effective tax rate is lower than the federal statutory rate of 35% primarily due to the federal graduated rate structure.

### 5. RELATED PARTY TRANSACTIONS

Included in investment advisory fees for the year ended December 31, 2004, are \$62,460 of fees received from the Parent.

The Company utilizes office space in the Parent's building without charge.

The Company's president and only employee served the Company without compensation during the year ended December 31, 2004.

# SUPPLEMENTAL REPORT ON INTERNAL CONTROL REQUIRED BY SEC RULE 17A-5

January 26, 2005

To the Stockholder of Starmont Capital Limited Cedar Rapids, Iowa

In planning and performing our audit of the financial statements of Starmont Capital Limited (the "Company") for the year ended December 31, 2004 (on which we issued our report dated January 26, 2005), we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the Company's internal control.

Also, as required by Rule 17a-5(g)(1) under the Securities Exchange Act of 1934, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control and of the practices and procedures, and to assess whether those practices and procedures can be expected to achieve the Securities and Exchange Commission's (the "Commission") above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized acquisition, use, or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control or the practices and procedures referred to above, misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal control or of such practices and procedures to future periods are subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with the practices or procedures may deteriorate.

Our consideration of the Company's internal control would not necessarily disclose all matters in the Company's internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the Company's internal control and its operation (including control activities for safeguarding securities) that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2004, to meet the Commission's objectives.

This report is intended solely for the information and use of the Stockholder, management, the Securities and Exchange Commission, the National Association of Securities Dealers, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Yours truly,

Delitte + Touche LLP
